APPLICATION FOR PERMIT UNDER POLLUTION CONTROL ACT (Effluent and Emissions)

THIS APPLICATION is to be filed with the Director of Pollution Control, 810 Blanshard Street, Victoria, B.C. V8V 1X5.

Any person who qualifies as an objector under section 16 of the *Pollution Control Act* may, within 30 days of the date of ap-

plication, or within 30 days of the date of publication in *The British Columbia Gazette* or in a newspaper, or where service is required, within 30 days of the serving of a copy of the application, file with the Director an objection in writing to the granting of a permit, stating the manner in which he is affected.

Preamble—The purpose of this application is to obtain a permit. The Company's gold milling pilot plant is currently operating in a manner outlined in an existing approval from the Director which expires on October 31, 1981. By law, this approval cannot be renewed. Consequently, to properly complete the test program, a permit is required to allow the operation to continue for an additional 6 months. This additional time is required to better characterize the metallurgy and waste treatment requirements necessary for an environmentally acceptable future, large-scale operation. The present pilot plant is a zero discharge facility. Tailings are discharged to a fully lined pond and supernatant is recycled to the plant so there is no discharge to the receiving environment. A new application will be submitted at a later date for a full-scale mine mill operation if the pilot plant operations are successful.
